

Editorial Board

Michael Pepper, Editor

London Centre for Nanotechnology and Department of Electronic and Electrical Engineering, University College London

Russel Cafilisch

Department of Mathematics, University of California, Los Angeles

Peter Coveney

Centre for Computational Science, University College London

Walter Craig

Department of Mathematics and Statistics, McMaster University

John Dainton

Cockcroft Institute For Accelerator Science and Technology

Ben Feringa

Stratingh Institute for Chemistry, University of Groningen

Daniel Feltham

Centre for Polar Observation & Modelling, University College London

Nigel Goldenfeld

Department of Physics, University of Illinois

Celso Grebogi

Institute for Complex Systems and Mathematical Biology, University of Aberdeen

Godfrey Gumbs

Department of Physics, Hunter College

Andreas Hoenger

Department of Molecular, Cellular and Developmental Biology, University of Colorado

Steven Howdle

School of Chemistry, University of Nottingham

Giles Hunt

Department of Mechanical Engineering, University of Bath

Bruce Joyce

Department of Physics, Imperial College, London

Holger Kantz

Max Plank Institute for the Physics of Complex Systems

Chris Kilburn

Department of Earth Sciences, University College London

Peter Kohl

University Laboratory of Physiology, University of Oxford

Jürgen Kurths

Institute of Physics, University of Potsdam

Marta Kwiatkowska

Computing Laboratory, University of Oxford

Frank Larkins

University of Melbourne

Brian Launder

School of Mechanical, Aerospace and Civil Engineering, University of Manchester

Alan Martin

Department of Physics, Durham University

William McGuire

Department of Earth Sciences, University College London

Alfredo Ozorio de Almeida

Centro Brasileiro de Pesquisas Físicas (CBPF)

Annie Powell

Institute of Inorganic Chemistry, University of Karlsruhe

Eric Priest

Department of Mathematics and Statistics, University of St Andrews

C.N.R. Rao

CSIR Centre of Excellence in Chemistry, Jawaharlal Nehru Centre for Advanced Scientific Research

Michael Rowan-Robinson

Astrophysics Group, Imperial College London

Claarence E. Schutt

Department of Chemistry, Princeton University

Gabor Stepan

Department of Applied Mechanics, Budapest University of Technology and Economics

Marshall Stoneham

Centre for Materials Research, University College London

Rowan Sutton

National Centre for Atmospheric Science, University of Reading

S. Randall Thomas

Biologie Intégrative et Systèmes Complexes, CNRS

J. Michael T. Thompson

DAMTP, Centre for Mathematical Sciences, University of Cambridge

William Unruh

Department of Physics and Astronomy, University of British Columbia

Paul Valdes

School of Geographical Sciences, University of Bristol

Tanja van Mourik

School of Chemistry, University of St Andrews

Vivian Yam

Department of Chemistry, University of Hong Kong

John Zarnecki

Planetary & Space Sciences Research Institute, The Open University

AIMS AND SCOPE

Each issue of *Phil. Trans. R. Soc. A* is devoted to a specific area of the mathematical, physical and engineering sciences. This area will define a research frontier that is advancing rapidly, often bridging traditional disciplines. *Phil. Trans. R. Soc. A* is essential reading for mathematicians, physicists, engineers and other physical scientists. As well as theme issues, the journal publishes papers from the Royal Society's mathematical, physical and engineering discussion meetings. For information on submitting a proposal for a theme issue, please consult the journal's website at rsta.royalsocietypublishing.org

ISBN 978-0-85403-822-0

SUBSCRIPTIONS

In 2010 *Phil. Trans. R. Soc. A* (ISSN 1364-503X) will be published twice a month. Full details of subscriptions and single issue sales may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; Tel: +44 (0)1206 796351; fax: +44 (0)1206 799331; email: sales@portland-services.com or by visiting our website at royalsocietypublishing.org/info/subscriptions. The Royal Society is a Registered Charity No. 207043.

Subscription prices 2010 calendar year	Europe	USA & Canada	All other countries
Printed version plus electronic access	£1801/€2342	\$3412	£1950/\$3496

Typeset in India by Techset Composition Limited, Salisbury, UK. Printed in the UK by Cambrian Printers.

This paper meets the requirements of ISO 9706:1994(E) and ANSI/NISO Z39:48-1992 (Permanence of Paper) effective with volume 338, issue 1649, 1992.

Phil. Trans. R. Soc. A (ISSN 1364-503X) is published twice a month for US\$3412 per year by the Royal Society, and is distributed in the USA by Agent named Air Business, C/O Worldnet Shipping USA Inc., 149-35 177th Street, Jamaica, New York, NY11434, USA. US Postmaster: Send address changes to *Phil. Trans. R. Soc. A*, C/O Air Business Ltd, C/O Worldnet Shipping USA Inc., 149-35 177th Street, Jamaica, New York, NY11414.
