Theo Murphy meeting issue: Bridging the gap: from massive stars to supernovae

INTRODUCTION
Bridging the gap: from massive stars to supernovae
JRMaund, PACrowther, H-TJanka and NLanger

ARTICLES
Predicting the nature of supernova progenitors
JHGroh

The evolution of massive stars: bridging the gap in the Local Group
PMassey, KFNeugent and EMLevesque

Luminous blue variables and the fates of very massive stars
NSmith

Mass loss and stellar superwinds
JSVink

Red supergiants as supernova progenitors
BDavies

The direct identification of core-collapse supernova progenitors
SDVanDyk

The mechanism(s) of core-collapse supernovae
SMCouch

Spectropolarimetry of stripped-envelope supernovae: observations and modelling
